Art Unit: 1743

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 25-44 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Clarke.

Clarke teaches an apparatus for the identification of marked liquids having a vessel for receiving the liquid, a detector and a comparison means. The method of intended use is of no patentable moment with respect to the instant apparatus claims.

3. Applicants' non-USP references were not readily available to the Office. Applicants are urged to submit copies of these references.

Any inquiry concerning this communication should be directed to Lyle A. Alexander at telephone number (703) 308-3893.
